

CloudLock® Security Fabric™

Technical Note 12.22.15: IP Library Format

Trusted IP Library

A trusted library of TCP/IP addresses can be useful in determining authorized versus questionable locations for activity monitoring in User & Entity Behavior Analytics (UEBA) policies. A library provided in a comma-separated-values (.csv) file can be uploaded to the CloudLock Security Fabric.

File Format

One record per line, comma-separated values; file size up to 1MB.

| Name | Description | Type | Authorized IP Address or Range |
|--|--|--|---|
| Name of entry, text up to 254 characters | Extended description, text up to 1000 characters | Values: "Remote office" or "office", "Remote app" or "app" | One or more valid IPV4 address(es). Single IP address requires no additional delineation. To specify a range, separate beginning and end of range with a hyphen (-). Enclose multiple comma-separated IP addresses within double quotes(""). |

Example:

Name, Description, Type, IP

Brussel Office, Range IPs of Brussel Office, Remote office, 192.168.7.5-134.184.7.10

Germany Office, Single IP of Germany Office, Remote office, 192.168.15.68

Spain Office, Multiple IPs of Spain office, Remote office, "10.1.0.11,10.6.160.1,10.152.128.155"

Lucidchart, Dev tool, Remote App, 192.168.1.65
